Acknowledgement

The Tanzania Institute of Education (TIE) would like to acknowledge the contribution of all public and private institutions that participated in one way or another in preparing this textbook. In particular, TIE wishes to thank the University of Dar es Salaam (UDSM), the Dar es Salaam University College of Education (DUCE), Sokoine University of Agriculture (SUA), teachers' colleges, the School Quality Assurance (SQA) Department and primary schools. Besides, the following individuals are also acknowledged.

Translators: Dr Cyrus Rumisha (SUA), Mr. Marcus I. Kipangule & Ms. Pamela R. Chalo (TIE), & Ms. Neema M. Thomas (SQA)

Editors: Dr Felista W. Mwingira (DUCE), Dr Charles Lyimo (SUA) & Dr Leonard Bakize (UDSM)

Designer: Ms. Rehema H. Maganga (TIE)

Illustrators: Mr. Fikiri A. Msimbe and Bw. Hance E. Wawar (TIE)

Photographer: Mr. Chrisant Ignas (TIE)

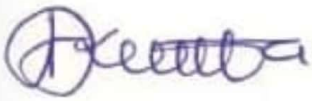

Cordinator: Mr. Marcus I. Kipangule (TIE)

TIE also appreciates the contributions of the primary school teachers and pupils who participated in the trial

Introduction

This book, Health and Environment Standard Two, has been prepared based on the curriculum and syllabus for Primary Education Standards I and II for the year 2023, issued by the Ministry of Education, Science, and Technology. Moreover, the book is the result of improvements and the combination of the two Health and Environment books for Standards One and Two, published in 2019 based on the 2016 curriculum and syllabus. The objective of this book is to enable pupils to build competency in taking care of health and the environment through the following learning activities:

1. Simple investigation of living and non-living things.
2. Adhering to safety signs.
3. Taking care of the environment.

Additional learning resources are available at TIE e-Library https://ol.tie.go.tz/videos

Chapter One

Simple investigations in the environment

I know the environment around me

The environment includes everything that surround us.

Activity 1

Walk around the school compound and observe the things found there.

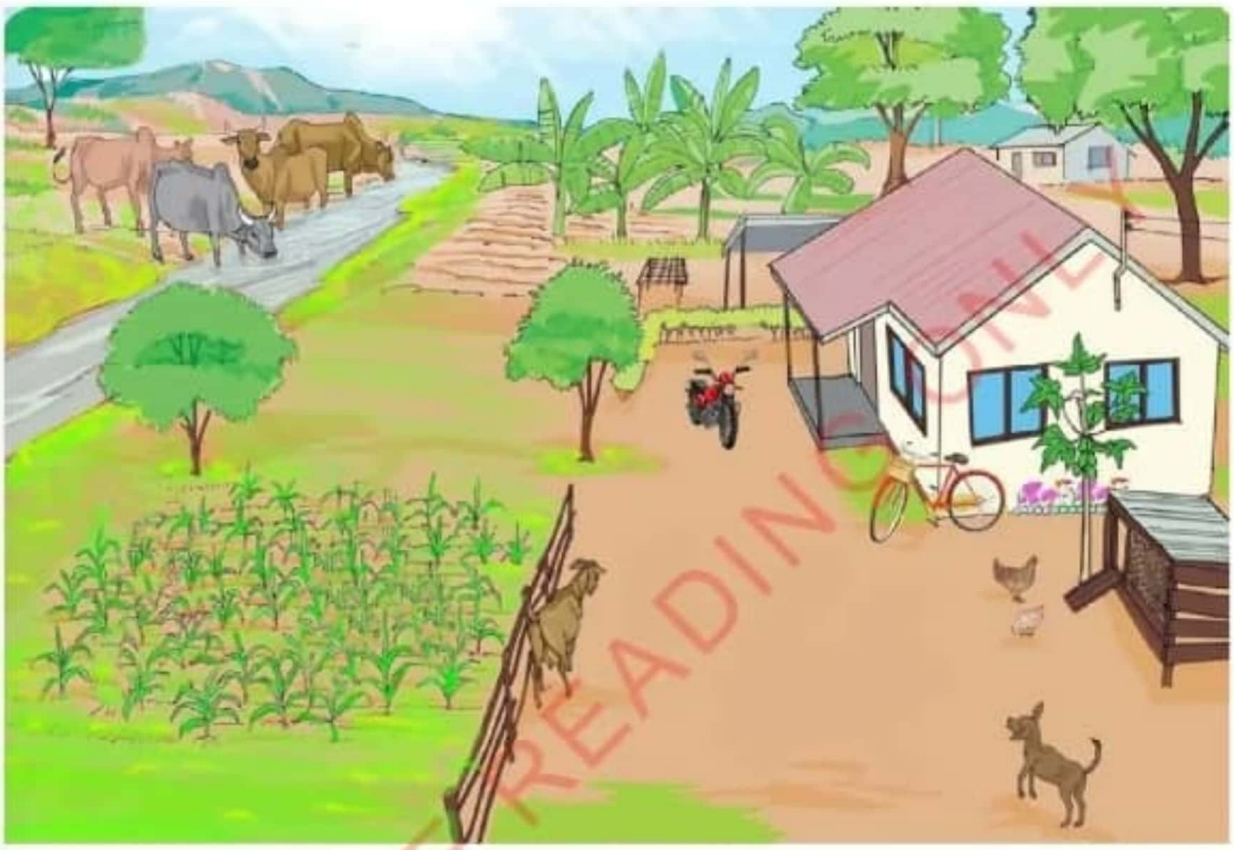

(i) What did you observe?

(ii) What things are found in the environment around your home?

FOR ONLINE READING ONLY

CamScanner

Study the following picture, then answer the questions that follow.

Questions

1. Name the things observed in the picture.
2. What do you like most in the picture? Why?

The environment is made up of living and non-living things. Living things include sheep, donkeys, elephants, zebras, antelopes, ducks, guineafowl, fish, maize plants, rice plants, orange plants, pineapple plants, watermelon plants, and neem plants. Non-living things include cars, houses, stones, desks, pencils, clothes, tables, and books.

Exercise 1

Mention the things found in your home and classroom environment.

I know the living things found in the environment

Animals and plants are living things found in the environment.

Activity 2

(a) Walk around the school compound, observe the living things found there.

(i) What living things did you observe?

(ii) Explain the features of one of the living things you observed.

(b) Use ICT tools to watch videos or view pictures showing living things found in the environment. Choose any two living things you have observed and explain their habitats.

FOR ONLINE READING ONLY

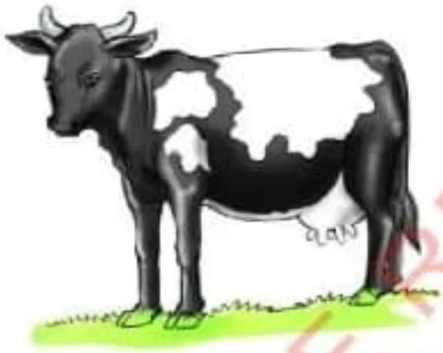

CamScanner

Living things are divided into two main groups. These groups are animals and plants. Animals include human being, cattle, giraffe, dog, fish, grasshopper, bees, cockroach, chicken, eagle and ostrich. Plants include trees, flowers and grasses.

Exercise 2

Observe the following pictures and answer the questions that follow:

(a)

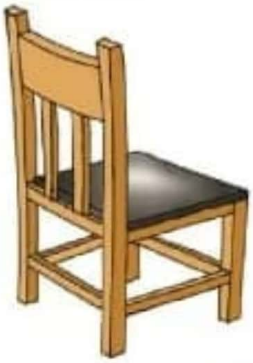

(b)

Animals	Plants

3. Explain the benefits of one of the animals shown in the pictures a-m.

4. Explain the benefits of one of the plants shown in the pictures a-m.

5. Identify the living and non-living things shown in the pictures a-m by filling in their names in the following table.

Living things	Non-living things

FOR ONLINE READING ONLY

CamScanner

I know the groups of animals found in the environment

Domestic and wild animals are found in the environment.

Activity 3

(a) Use ICT tools to watch videos or view pictures showing different kinds of animals.

(i) Name the animals you observed.

(ii) Choose one animal you observed and boast about its features.

(b) Visit a national park, an animal zoo or a domestic animal farm.

(i) Name the animals you have observed.

(ii) Tell a short story about the animals you have observed.

FOR ONLINE READING ONLY

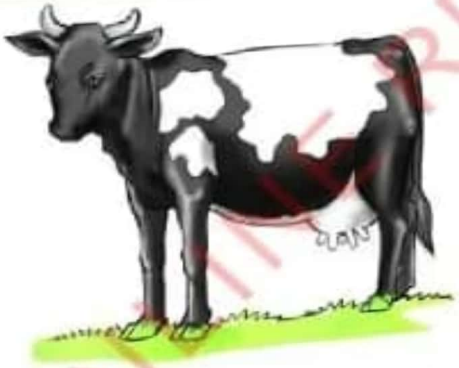

CamScanner

There are two groups of animals: domestic animals and wild animals. Domestic animals are those that are kept at home. These include cattle, goats, sheep, chickens, ducks, dogs, cats, and donkeys. Wild animals are not kept at home. Most wild animals live in the forest. These include lions, elephants, antelopes, hippopotamuses, ostriches, zebras, and buffaloes.

Exercise 3

Observe the following pictures and answer the questions that follow.

Chapter Two

Safety signs

I adhere to the road safety signs

I observe the road safety signs in order to be safe.

Activity 1

Perform a boasting to describe the uses of road safety signs.

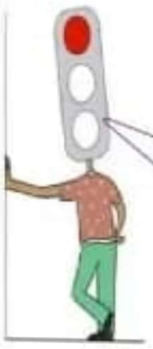

I am a children's crossing sign. Use me to cross the road safely.

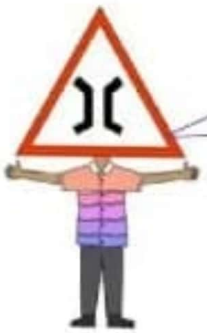

I am a green traffic light. When I turn on, I allow people, cars, motorcycles and bicycles to pass.

FOR ONLINE READING ONLY

CamScanner

I am a red traffic light. When I turn on, people, cars, motorcycles and bicycles stop.

I am a narrow bridge. Be careful when using me.

I am a road work ahead sign. Take caution when passing by.

I am a bus stop sign. Use me to get in and out of the bus.

I am a yellow traffic light. When I turn on, get ready to either pass or stop.

I am a railway crossing sign. When you see me, be careful before crossing the road.

I am a cyclist lane sign. Use me when riding a bicycle.

Questions

1. What actions are shown in pictures 1-5?
2. What road safety signs have you ever seen? What safety precautions did you take?

Read the following case study and answer the questions that follow:

Sopwe and Kipepe are standard two pupils at Mtakuja Primary School. The school is located along a main road that has a children's crossing sign. One day, Sopwe and Kipepe went to buy sweets from a shop located across the road. They crossed a section of the road that did not have a children's crossing sign. As they crossed, they were struck by a motorcycle. Sopwe broke his arm, and Kipepe sustained bruises on his knees. Their classmates called a teacher, who took them to the hospital for treatment. The teacher instructed them always use the children's crossing whenever they cross the road. Additionally, they should ensure that bicycles, motorcycles, and cars have stopped before crossing.

Questions

1. Why were Sopwe and Kipepe struck by a motorcycle?
2. What advice would you give to pupils who do not observe road safety signs?

FOR ONLINE READING ONLY

CamScanner

Activity 2

(a) Use ICT tools to watch videos or view pictures showing how to adhere to various road safety signs. Explain the precautions to take based on the road safety signs you observed.

(b) Perform a role-play to demonstrate adherence to road safety signs.

Sing the following poem, then answer the question.

Poem

When walking, safety is a priority,
When on the road, know the road signs,
Home or school, arrive safely,
Safety is a priority when on the road.

Walking on the right, it is always safe,
On the pedestrian crossing, look to the right,
To the left, then to the right again,
Safety is a priority, when on the road.

When cars stop, that's when it is safe,
You can cross safely, without getting stuck,
The things you have read, keep in mind,
Safety is a priority, when on the road.

FOR ONLINE READING ONLY

CamScanner

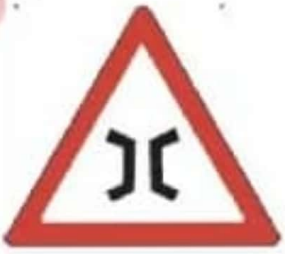

Questions

Based on the poem, what precautions should you take when crossing the road?

Road safety signs are used to direct road users when using the road. Examples of road safety signs include traffic lights, pedestrian crossings, children crossings, railway crossings, cyclist lanes, bus stops, and road work ahead signs. It is important to observe road safety signs when using the road for your safety.

Exercise 1

1. Why is it important to observe road safety signs?
2. By considering the knowledge on road safety signs, how can you assist your friend who wants to cross the road?
3. Explain the safety measures you would take when you see the following road safety signs:

(a) 

(b) 

(c)

Question

Write a short story about each action shown in the pictures 1-6.

Activity 4

Perform a role-play to demonstrate adherence to safety signs in the environment.

There are several safety signs in our environment. These signs are used to direct, restrict, warn, and indicate. They also show possible dangers that can occur if they are not observed. Examples of safety signs include no open flame, no smoking, unsafe water, slippery floor, dump waste here, flammable, high voltage, and toxic materials.

Exercise 2

1. Why is it important to adhere to safety signs in the environment?
2. What safety signs are found in your area?
3. What precoutions will you take when you come across the following safety signs:

Questions

1. Name the items used for caring for the environment shown in picture a-p.
2. What other items used for caring for the environment do you know?

Activity 2

Observe the following cartoons, then boast about items for caring for the environment by mentioning their uses.

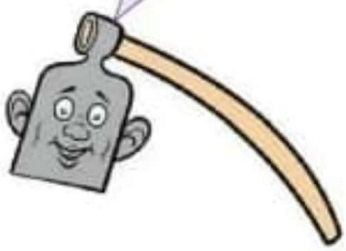

FOR ONLINE READING ONLY

CamScanner

I am a hoe. Use me for digging.

I am a twig broom, I sweep waste away.

I am a pair of garden shears, I cut and trim flowers.

I am a rake. I collect all the rubbish.

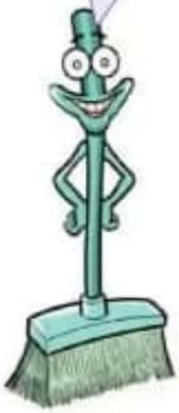

I am soap. Use me to clean and kill germs.

FOR ONLINE READING ONLY

CamScanner

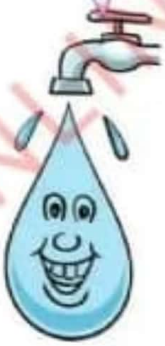

I am a hard brush. I scrub the floor to make it clean.

I am a slasher. I cut long grasses.

I am water. Use me to clean your surroundings.

I am a piece of clean cloth. Use me to remove dust.

I am a watering can, use me to water trees and flowers.

FOR ONLINE READING ONLY

CamScanner

Activity 3

Design and develop an item that can be used for cleaning the environment and explain its use.

The environment is cleaned using different items such as a hoe, broom, cloth, rake, dustpan, watering can, slasher, garden shears, soap, dustbin, machete, and bucket. These items can be bought or made using materials available in our surroundings

Exercise 1

Match the items used for cleaning the environment with their uses by writing the letter of the correct answer in the table provided.

No.	Name of tools	Use
1	Hoe	A. Used for sweeping
2	Rake	B. Used for digging
3	Garden shear	C. Used to collect rubbish
4	Broom	D. Used to store waste before disposing of it in a pit

FOR ONLINE READING ONLY

CamScanner

5	Dustpan	E. Used to cut and trim flowers
6	Dustbin	F. Used for carrying dust and waste after sweeping

Question	1	2	3	4	5	6
Answer						

I clean my surroundings

I clean my environment to keep it safe and healthy.

Activity 4

Use ICT tools to watch videos or view pictures showing how to clean both the inside and outside of a house or classroom. Explain the steps for cleaning a house or classroom.

FOR ONLINE READING ONLY

CamScanner

Observe the following pictures, then answer the questions that follow.

(a)

(b)

(c)

(d)

Questions

1. What actions are taking place in picture a-d?
2. Why is it important to keep the toilet clean?
3. Why do we wash our hands with clean water and soap after cleaning the environment?

Read the following case study, then answer the questions.

Chausiku is a Standard Two pupil at Upepo Primary School. One day, she had a high fever and was taken

FOR ONLINE READING ONLY

CamScanner

to a health center for treatment. After recovering, she returned to school. Chausiku told her classmates that she had malaria. Her classmates wanted to know the causes of the disease. Chausiku explained, as the doctor had told her, that "Malaria is caused by parasites that are transmitted to human through mosquitoes. Mosquitoes breed in environments with stagnant water, long grass, and in containers and tires that hold water. To prevent malaria, it is necessary to remove mosquito breeding sites by cutting long grasses and removing stagnant water. Additionally, containers and tires that hold water should be removed from our environment. Moreover, cleaning the environment keeps away other dangerous animals like snakes, monitor lizards, scorpions, and centipedes. The pupils were happy and promised to clean their environment.

Questions

1. What have you learned from this case study?
2. How would you help your friend who lives in a dirty environment?
3. What other diseases are caused by a dirty environment?

FOR ONLINE READING ONLY

CamScanner

Activity 5

Use the items used for cleaning the environment to clean the following areas:

(i) Your classroom
(ii) The school toilet
(iii) The school compound

A clean environment is attractive and provides us with fresh air. It also keeps away dangerous animals and insects that spread diseases. We should clean our home and school environments to keep them clean and safe. Also, we should wash our hands with clean water and soap after cleaning the environment to protect ourselves from diseases.

Exercise 2

1. Why is it important to clean the environment?
2. What is the importance of using soap, clean water, and a broom when cleaning the toilet?

FOR ONLINE READING ONLY

CamScanner

I care for my environment by planting trees and flowers.

Activity 6

Walk around the school compound and identify the different actions taken to care for the environment cared for.

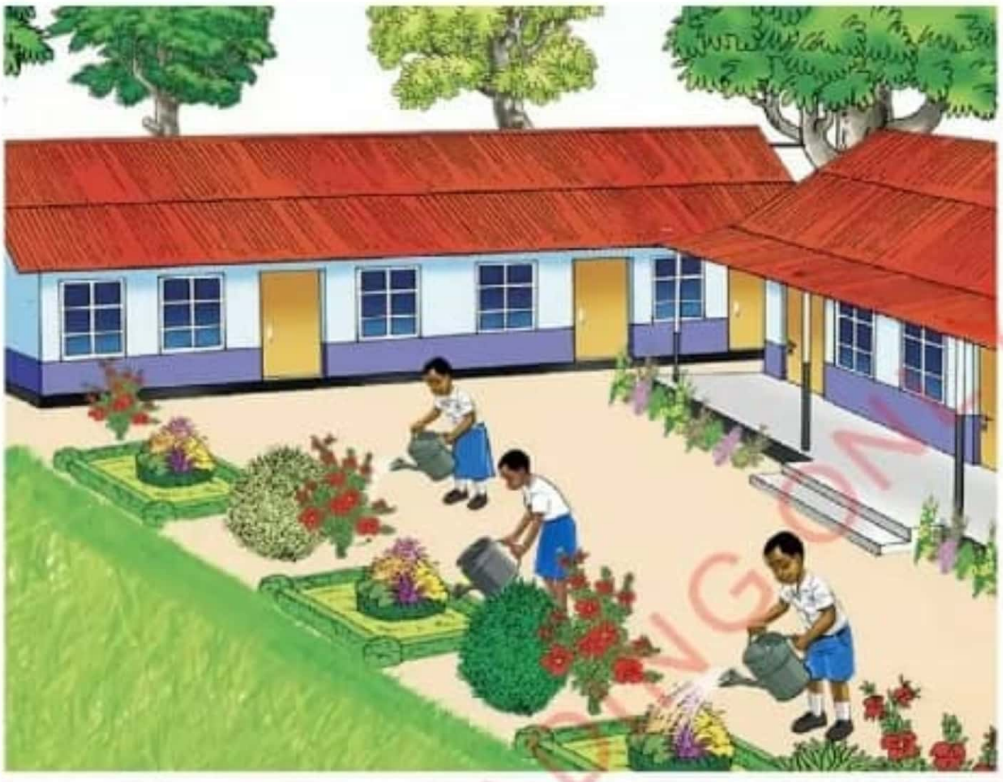

Observe the following pictures, then answer the questions that follow.

(a)

FOR ONLINE READING ONLY

CamScanner

(b)

Questions

1. What actions are shown in pictures (a) and (b)?
2. Why is it important to plant trees and flowers around the school compound?

Activity 7

(a) Use ICT tools to watch videos or view pictures showing how to plant trees and flowers in the environment. Explain the steps for planting trees and flowers.

(b) Plant trees and flowers in the school compound using the tools you have learned.

FOR ONLINE READING ONLY

CamScanner

Sing the following song, then answer the questions that follow.

Song

What is the environment, my friends?
The environment is everything
that surrounds us x 2
Let's take care of the school environment
By planting trees and flowers
Sweep the classrooms and all areas
Love, protect, and care for the environment

Let's take care of the home environment
By planting trees and flowers
Sweep the entire compound around our home
Love, protect, and care for the environment x 2

Questions

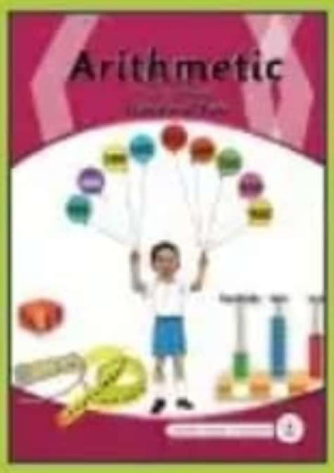

1. Identify the actions for caring for the environment mentioned in the song.
2. Which actions for caring for the environment are done at your school?
3. Which actions for caring for the environment do you do at home?
